

Additional Notes for the ITERS-3

Item 20. Nature/science

5.2 Remove note, it should be for indicator 5.3:

To give credit, children must be able to see or understand what staff are talking about. For example, staff talking with infants about a plant located across the room, that the child is not looking at, would not count.

5.3 Additional note for 5.2 should be for indicator 5.3:

To give credit, children must be able to see or understand what staff are talking about. For example, staff talking with infants about a plant located across the room, that the child is not looking at, would not count.

7.4 Replace note in scale with the following:

For children under the age of two who are not observed having access to sand/water, score N/A since it is not required for this age group. Score "No" if sand and water is not closely supervised for any child while using sand/water (including children under the age of two) or if children two and older are not observed having access to sand/water.
